Business

Every merchant wants to make his business bigger and better than ever before, and there is only one way to do it.

We all have our own expectations of what this year should bring, and the realization of these expectations depends on ourselves.

The success of any man's business de-pends on how well he studies and knows it, the quality of the goods he handles, and the excellence of the service he renders his customers, coupled with a thorough knowledge of market conditions.

We carry a large and complete stock and will endeavor always to improve on present conditions whenever we find a weak spot in our stock or service.

An Idonoclast In the person of Dr. Eduard Engel In a lecture recently delivered before the members of a literary society in Hamburg on "The Legend of Charlotte von Stellen" tore to pieces all the illusion which clustered around her name. He showed by old letters and other documents that the woman to whom Goethe had written 1.500 letters which portrayed the beart dempled all that was noble. She called all literary people "fools" and made sport of them. When Schiller died she congratulated his family, saying that it was better for live alone than to be compelled to abide in the neighborhood of "unnatural company."

The lecturer ended the discourse by saying that Goethe's letters to "rolotte yell new be read "with low saying that Goethe's letters to "rolotte yell new be read "with low and markation for the poet's boundless fanagination which formed a goddess out of this nothing."

The only nourishment that bread affords is that which the flour contains.

Bread baking is merely putting flour in appetising form.

Flour making is merely putting the nutritious part of wheat in shape for bread . making.

Good milling is the kind that takes from the wheat all that is nutritious, nothing else.

Royal Household Flour

is made from carefully selected Manitoba Hard spring wheat.

Every pound is almost a pound of food; clean, white, pure and nutritious.

It goes farther, does better baking and is more satisfactory in every way than any other flour.
